PART I. WATER

1. Urban water supply

1.1. Urban water subscribers

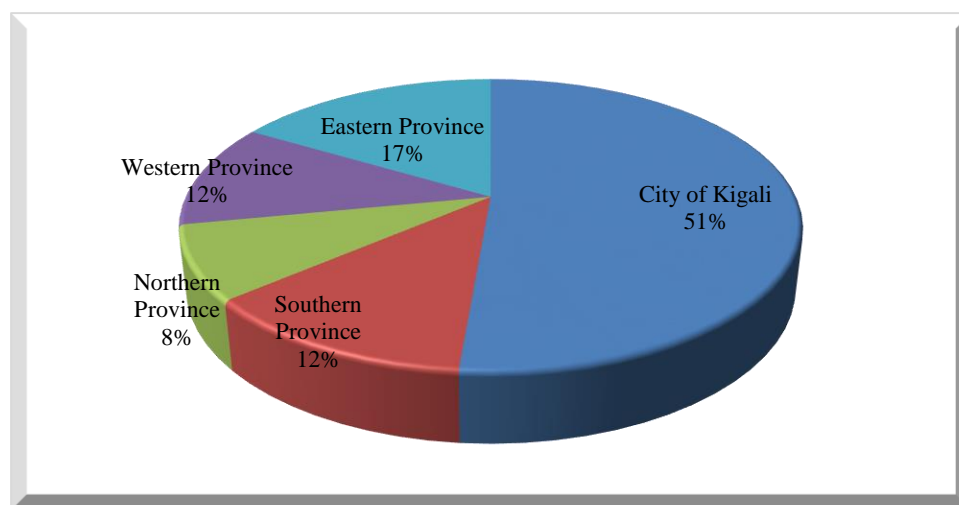

As of September 2018, the total number of urban water subscribers has increased up to 211,479 from 207,408 connections recorded in the second quarter of the year 2018, representing an increase of 2.0%. The 51.2% of the total connections are in the City of Kigali while 48.8% of them are distributed in the provinces. This difference is mainly attributed to the fact that, some people in the provinces consume water supplied by Rural Water Service Providers.
