Cars were classified depending on their transportation capacity as follows;

1. Cars with a capacity of transporting 15-20 persons was considered to be a Minibus
2. Cars with capacity of transporting 20-35 persons was considered to be a Coaster and
3. All cars with a capacity of transporting more than 35 persons were considered to be buses

**Figure 1: Types of cars used by transport companies and cooperatives in Rwanda as of March 2013**

Minibuses are the most used cars by the Transport companies in this quarter under review with 58% share followed by Coasters with 38% and 4% of buses; this is different from what was observed in the last quarter of 2012 where it was observed that 60% of companies used coasters. This is mainly due to individual operators who mostly used minibuses in their business that were instructed to operate under cooperatives or companies.
