

COMMUNIQUE

In order to revise the fuel pump prices taking into consideration the eventual price changes recorded at the international market of petroleum products;

Rwanda Utilities Regulatory Authority (RURA) informs the public that the fuel pump prices applicable in Kigali, from June 10th to July 31st, 2022 are revised as follows:

- The maximum retail price for Gasoline (Premium Motor Spirit) is **1,460 Frw/L**.
- The maximum retail price for Diesel (Automotive Gas Oil) is **1,503Frw/L**.

Since May 2021, these fuel pump prices have been stabilized following the strategy adopted by the Government of Rwanda to forego some taxes levied on imports of these petroleum products.

Specifically, for this period, the Government of Rwanda avoided the price increase of 316Frw/L for Gasoline and of 350Frw/L for Diesel and therefore allowed the price increases of 101Frw/L and 135Frw/L respectively for Gasoline and Diesel.

This decision was taken in order to avoid the negative consequences of exaggerated fuel price increase that would cause the generalized price increase (inflation) and therefore decelerate the speed on which our economy is recovering from the impact of COVID-19 outbreak.

Done at Kigali, on 09 June 2022.
