

COMMUNIQUE

Rwanda Utilities Regulatory Authority (RURA) announces that current pump prices remain unchanged after revisions based on adjustments in the petroleum products international market.

For the next period of two months, from 5 December 2022, fuel pump prices are as follows:

- Maximum retail price for Gasoline (Premium Motor Spirit) remains at **1,580 Frw/L.**
- Maximum retail price for Diesel (Automotive Gas Oil) remains at **1,587 Frw/L.**

Although the global prices for fuel have increased, the Government of Rwanda has maintained current fuel pump prices applicable in Kigali, to mitigate the eventual adverse impact on inflation. Since May 2021, the Government has stabilized fuel pump prices by foregoing some taxes on imports of selected petroleum products.

END

Kigali, 04 December 2022
