

PUBLIC NOTICE

In a bid to prevent fire outbreaks and other incidents associated with substandard electrical installations;

Rwanda Utilities Regulatory Authority (RURA) informs the general public that electrical installation activities in all premises (residential, public, commercial and industrial buildings) must be carried out by the competent electrical installation practitioners with valid permits issued by RURA.

In this regard, RURA informs owners of the existing or new residential premises located in the City of Kigali, wishing to get electricity connection from REG/ EUCL, that **starting 1st March 2021**, they will be required to submit a certificate of compliance or a commitment letter confirming that electrical installations in their premises have been or will duly be carried out by a certified electrical installation practitioner with a valid permit issued by RURA.

The list of accredited electrical installation practitioners with valid permits is available on RURA website: www.rura.rw.

Done at Kigali, 13th January 2021.
